THEIR EXPLORATION OF AFTER SCHOOL CLUBS

1

Our club, Clarence!
Is a sewing club synonymous with history and tradition
Ah
And take care of it quickly
Of course, we get a little reward for our efforts... It's not money
We get the clothes of the students at this school that require immediate attention
How about it?
If you join our club, you will be able to receive this service for free.
Why?

2

Who would be crazy enough to join that club.
Isn't that club a missile silo?
What kind of clothes need immediate attention at this school that we have a tournament in our school?

Well, you know. Critical warming might summon Tester in this country and kaiju villains might be likely to live in this place
If those things fly above this school and proceed over the students, then we might need a hunkamon
Yeah, yeah. People fell in the food rebirth tank at this time, and it'll be difficult if there was no hunkamon!
And I guess the uniform changes kinda depending on how it feels that day. Then I guess you do need to mend it immediately

Yeah, you're right. I guess it's hard to have a of school without a hunkamon now.
If you were hit by lightning like your clothes all burned down then you'd be in big trouble...
